EDUCATION

Bachelor in Science in Computer Science

JCT Lev Academic Center

2015 - 2019

CERTIFICATES

- **The Joy of React**
| Josh Comeau
- **The complete 2022 Web development Bootcamp.**
- **React - The Complete Guide.**
- **JavaScript Algorithms and Data Structures Masterclass**
| Udemy

SKILLS

- React
- JavaScript & ES6 / ES5
- HTML/ HTML5
- CSS/ CSS3/ SASS and BEM method.
- Consuming data from APIs.
- Redux & React Query
- Context-API
- Node.js & express
- MongoDB (mongoose)
- Typescript
- Firebase
- jQuery
- Tailwind & Bootstrap
- Git, Github. bit.dev

PROFILE

I am a **Frontend Developer** and a Fullstack developer with a strong understanding of Javascript and React.js framework, its cores and hooks. Knowledgeable in DS implementation and algorithms solving in JavaScript and ES6. Experienced in **building Frontend and Fullstack architectures** from scratch. I'm a **Computer Science graduate in the age of 19** and a self learner. A team player who loves to share his aspects on code a problem-solver and thrives on challenges.

WORK EXPERIENCE

Frontend Developer

2022 - present

- Design and create architectures for web applications.
- Develop full-stack web apps using MERN structure and firebase.
- Create more appealing user interfaces using Javascript libraries, CSS technology tools such as modules, tailwind, bootstrap etc.
- Experience in functional programming in JavaScript and knowledgeable in ES6.
- Created a server-client app using a proxy server to help the client consume data from an API using React utilities such as React Router and Redux on the client side and improving app performance with React Query.
- Give talks and lessons on components and Design systems such as **Material-UI** and **Radix primitives** in a new aspect.
